- Electric and electronic control panels
- Steel pipe, vessels, servo valves and pumps
- Entire process systems

Sta-Dri® Bags Protect Pipe Shipments for Nuke Plants. Prevent the Damaging Corrosion of Summer Humidity!

Testimonial for Beach Sta-Dri Bags®

Use Sta-Dri® Desiccant Bags for Shipping Critical Components. Xtreme Piping of Houston, Texas was concerned their truckload of piping destined for the SolarField Nuclear Power Plant in Redman, Washington, would suffer the corrosive effects of moisture during the 3 week transit.

Their customer's critical specification required the pipe arrive corrosion free. "Working with Beach Filters Products, we calculated the number of Sta-Dri® Desiccant Bags and their placement in the 6 to 30" diameter piping needed for the long trip to the power plant site." said Jay Brassell, Technical Sales for Frederick Logan Company in Warrendale, PA. Sta-Dri® Bags are used throughout our industrial distributors to solve moisture problems in shipping and storage.

Sta-Dri® Bags Available in 64oz., 32oz., 16oz., 8oz., and 4oz. sizes

- Inexpensive protection
- Absorbent Clay - no corrosive salts
- Re-usable

Private Labeling Available

Distributor support includes:

- Ship within 24 Hours
- Personal Service - Call Lori or Leslie
